At ARAB HEALTH

January 24 - 27, 2022 - Dubai,  
(United Arab Emirates)

Stand H2C50 / H2D50

Wallonia.be

Wallonia has an excellent logistics infrastructure and «multimodality» is the keyword. **Liege Airport** was awarded the title of **best cargo airport in the world** for the year 2020. You will also find yourself well supported : the actors of the sector are gathered in the «Logistics in Wallonia» cluster.

# WALLONIA EXPORT & INVESTMENT AGENCY

H2C50/H2D50

The Wallonia Export & Investment Agency (AWEX) is the institution in charge of the development and management of Wallonia's domestic and international economic relations.

Through a personalized, innovative, and sustainable approach, AWEX supports Walloon companies - regardless of their size, sector, or target market - in every step of their international endeavors. This includes exports, technological partnerships, and development abroad.

The agency's vast network of connections ensures the best advisors are always by your side. Our local anchors and agents abroad are capable of providing unparalleled insight to take your company to the next level. In addition, our connections will help establish your business in the global marketplace and promote it throughout the world. Training, incentives, and international financing are also available.

AWEX is also committed to strengthening Wallonia's position as the premier gateway for international investors seeking success in the heart of Europe. We work closely with them to inform, convince, and advise in every stage of their development.

Feel free to get in touch with one of our local or international agents via our websites listed above.

In our network of more than 400 employees in nearly 100 countries around the world, there is always someone ready and willing to support you in your approach.

After 25 years of experience in the health industry, Mr Ligot & Mr Raimond have embarked on the development of a unique and innovative range of Belgian Synbiotics focused on global health issues. Their know-how allowed them to develop products whose scientific approach sets them apart from other food supplements on the market.

Composed of carefully selected synbiotics & nutraceuticals, Bellavie products, also called «Synbioceutical», bring all the necessary ingredients to improve your well-being.

Bellavie places global health at the heart of its priorities and is committed daily to helping improve the well-being and health of all by developing products suitable for the whole family. Bellavie offers an innovative and unique range of synbiotics allied to nutraceuticals, which help to strengthen the immune system, reduce cholesterol and diabetes, help reduce female urinary discomfort, better manage stress, help growth of the child.

**Sector: Medical Waste Management**

The range of decontamination machines consists of 4 machines of different sizes processing up to 7 tons per day.

The Ecosteryl machines handle a large variety of regulated medical waste, including hospital and laboratory waste, solid and liquid medical waste, pathological waste, sharps containers, as well as any residue considered as medical waste.

The waste which exits the machine is shredded, decontaminated, dry and unrecognizable. The decontaminated waste can be recycled with "R-steryl sorting center".

Ecosteryl imagines, develops, manufactures and supplies innovative environmental solutions in the field of medical waste treatment. Their machines, using microwave technology, are 100% electric and eco-friendly.

# CryoPen<sup>®</sup>

**Sector: Disinfection**

Belgian family business founded in 1957, Huckert's International Laboratory produces and develops two premium brands: UMONIUM38® for high-level disinfection and PHYTOGEL By HUCKERT'S® for hygiene and skin care.

As part of an ECO-RESPONSIBLE approach, our laboratory is committed to marketing products that are safe for the operator, the patient, the equipment and the environment.

Certified ISO 9001 and ISO 13485, we guarantee perfect traceability and reproducibility of our products.

Our high-level UMONIUM38® disinfectants are free of CMR components (Carcinogenic, Mutagenic or Reprotoxic) and endocrine disruptors, biodegradable and pH neutral. Compliant and validated according to the highest European normative application standards, they are effective and safe for the operator, the equipment, the patient and the environment.

Our PHYTOGEL By HUCKERT'S® dermatological solutions are rich in essential oils of medicinal plants and preserve the skin, even the most fragile, guaranteeing impeccable hygiene and disinfection.

Healthcare

Based at the Scientific Parc of Liège where we have developed together with Prof. Eric Rompen and Dr Frederic Luizi, a disinfection device active on viruses, bacteria, and fungi.

The technology is based on UV-C, for fast, reliable, and efficient disinfection process.

Originally launched for the dentists it is also used in many other sectors where spaces and surfaces exposed to virus (including Sars Cov\_2 and EHV-1) and other pathogens involves protection and special care such as hospitals, veterinary clinics, horses farms, nursing homes, laboratories...

We are the developer and the producer of the concept made in Belgium.

Since 1991, THT Probiotics producer produces microorganism with passion. Its mission is to be a European leader in biotechnology manufacturing.

THT Probiotics Producer supplies raw living material as health ingredients to provide responsible solutions to the food supplement industry, the food industry, the animal feed industry and recently to the cosmetic industry.

We can supply probiotics in bulk or probiotics full finished products.

#### **Probiotics in bulk.**

We can supply probiotics blend cultures in bulk.

We can help you to optimize your perfect formula for the targeted market and applications. The blends are enriched with other active ingredients like vitamins, minerals, digestive enzymes, prebiotic fibers, plant extracts etc.

We accompany and advise our customers in developing their marketing approach.

#### **Tailor Made Private Label**

We can supply probiotics in half-finished products or full private labelled packaging. We guide and advise you through the development of the right formula for food supplements. We can provide on demand genetic identification of THT probiotic strains. Our formulas can be developed in a way to resist the worst climatic conditions for probiotics, like high humidity and high temperatures.

Prolactys® - Exclusive Formula by THT, Belgian Microbiome Science.

We are also proud to offer solutions to save time in development to our customers with “Fresh live bacteria direct from the producer” form
